

INFOVISION

InfoVision is a leading provider of digital innovation, spearheading digital transformation for brands of all sizes across industries. Our R&I center – the Digit7 Lab, specializes in combining emergent technologies in unprecedented ways to create extraordinary competitive advantage.

Innovation thrives at the intersection of creativity, enthusiasm, unique ideas, and teamwork. For InfoVision, the Digit7 Lab is the ground zero of such innovation which is our key catalyst in delivering powerful digital transformation at scale to the Fortune 500, Fortune 1000, Global 2000, inspired VC-backed firms, and ISVs.

Digit7 your dedicated Innovation Partner

Direction fills us with purpose, and purpose provides structure. Our visionaries realized this a quarter-of-a-century ago, and we have since provided organizations with the strategic innovation roadmaps they need to forge their futures.

Innovation is our last name, and disruption our address – we create paradigm shifts in organizations with intuitive technology, equipping firms to endure accelerating change.

Inherent Scalability

Event-driven Architecture

Faster Timeline

Secure

Transform your current in-store shopping into a frictionless experience

Robust and scalable self-checkout store compared to big players at very competitive pricing for all retailers irrespective of size. Try our feature-filled solution for the utmost customer experience.

Scan code to Walk-in

Pick your items

Walk-out with a smile

Add-on Image Annotation Solution (TagSquare)

95% Accuracy versus other market players

Not restocking quickly enough is a significant problem faced by all retail outlets. Products are in the store but not on the shelf?

Bring your products closer to your customers when they need them and avoid running to the backstore for replenishments with our Smart Shelves. Stock shelves immediately and update inventory automatically.

Features on deck

Cross hand intervention

Real-time Restocking alerts

Cost-efficient implementation

Misplaced Product locator

Valuable customer data

Enhanced operational efficiency

- ▶ NO queues and waiting
- ▶ Fully automated
- ▶ Real-time cart & checkout
- ▶ safer shopping environment
- ▶ Less time spent in-store
- ▶ Effective resource utilization
- ▶ Easy Implementation
- ▶ Robust & scalable
- ▶ Event-driven Architecture

Smart Shelves

Built-in intelligence to detect product movement, update inventory & real-time communication with the inventory management system

TAG SQUARE

Aggregated AI auto annotator platform to convert your unstructured data into actionable insights.

Reduced Manual Effort upto 80%

AI-powered automated Image tagging tool that includes object recognition, behavior analysis, facial recognition, and more

Features on deck

- ▶ User-friendly Labeling Model
- ▶ Robust Model Creation
- ▶ Platform-agnostic
- ▶ Intuitive
- ▶ Download

Industries where Tagsquare can make a difference

- ▶ Autonomous Driving
- ▶ Agriculture
- ▶ Security & surveillance
- ▶ Robotics
- ▶ Insurance
- ▶ Medical Imaging
- ▶ Sports
- ▶ Fashion
- ▶ Retail Automation

FLYROBO

Autonomous real-time indoor & outdoor navigation drones customizable to suit practical, real-world applications

Remote Inventory Management with smart drones in real-time.

Features on deck:

- ▶ Autonomous 3D Mapping
- ▶ Flight vector points
- ▶ Real-time Inventory Updates
- ▶ Smart Navigation
- ▶ Static & Dynamic Collision avoidance
- ▶ 4Ft Scanning Range
- ▶ Premium Features
- ▶ UAV Swarms
- ▶ Reduced Losses
- ▶ Enhanced productivity

Industries where Flyrobo can make a difference

- ▶ Warehouse and Retail
- ▶ Telecom
- ▶ Construction
- ▶ Banking & Insurance
- ▶ Medical & Healthcare
- ▶ Utility & Energy
